A few things about board meeting

I spoke to a friend last night who is a licensed pesticide applicator and he suggested using vinegar and salt to kill weeds. No license required for this.

Re loose animals. An ordinance is required. The neighbor approach does not work. Ask Bill Dunkel. I have also spoken to Kermit and about his dogs running loose and he just laughs at me. Let them fine! me is his response.

Re school speed limit. Please review.

Abby Pelton still has the friends of Windham school logo show up/. This is not appropriate for a town meeting. It is a very decisive issue still.

Re 911 list. This is a mess and had not been touched since 2015. There are errors everywhere. It will take a few more weeks before it is completed.
