Subject: Logging Project on Scott Pet Road

Hello, Selectman Scott – I live on the corner of Route 11 and Scott Pet Road in Londonderry, VT. A portion of my property extends into Windham, VT and there is a logging project currently underway on the property that abuts mine. As you can imagine, it's extremely loud, especially when it starts at 5:55 and 5:30 a.m. waking up my daughter and two young grandchildren. I called the Town Hall to ask if there was a specific time period for that type of noisy work and was told loggers are allowed to work from 6:00 a.m. to 7:00 p.m. I was very surprised by such an early start time. I have two questions:

Is that timeframe under consideration of being adjusted? If yes, I would ask that the start time push to 7:00 or 8:00 a.m.

Do you know how long this project is expected to last?

I look forward to hearing from you.  
Cindie

Hi Cindie,

I'm sorry about the disturbance – for what that's worth. The information you received about the 6:00 start time is correct and is covered in both our zoning regulations and overweight permit restrictions.

This has been a challenging year so far for many residents as there are an unusual number of logging projects going on in town. We (the town) only have limited influence over these activities, as forestry work is under the purview of the state. Hopefully you can understand that there is “balancing act” between landowners who want or need to clear, the income ramifications of the logging efforts, the very limited season for this type of work, the intrusion for local residents, and the potential for damage to the roads.

I have not heard exactly how long this project will go on. It started in another area of the property that was accessed from Hitchcock Hill Road. I'll check with our road foreman as he has spoken with the contractor.

Best,  
Kord

Thank you for your quick response, Kord. Whatever information you can get on the Scott Pet Road logging project would be appreciated.

Cindie
