Subject: Re: Windham EMS service

Hello Rachel,

Thank you for reaching out and for your patience as I communicated your request with our Board of Trustees. I can appreciate your involvement with the Windham town EMS plan and your regard for the safety of the town's residents.

At this time, Rescue Inc, is not able to provide a proposal for service to the Town of Windham. As you may be aware, Rescue is currently in a time of evaluation of business plans and services. As we move forward, the commitment we have made to our 14 remaining towns is paramount to our resource planning and our Board of Trustees is not looking to further stretch our territory in that direction at this time. I will reach out if there comes a time where this changes, but in the meantime we will continue to support our neighbors and provide aid to Londonderry Rescue when they need it.

Thank You,

Chief Drew Hazelton
